HUNTING APPAREL BROCHURE 2025

HUNTING APPAREL BROCHURE 2025

A

Over the years, Arktis has grown an extensive customer list. Here are a few we have been incredibly honoured to serve.

The purpose of this catalogue is to showcase the capability we have at Arktis and present the 'HUNTER' range.

Translating our 40-year Heritage of Military grade clothing and Gear into our purpose-built hunting apparel aimed at the mid to premium consumer. The focus at Arktis is on Government supply through specific unit needs, Special Forces projects and tender opportunities.

Over the years, we have worked closely with the end user from a variety of tactical fields, sharing their knowledge and allowing us to design products which are 'right' for the job. Exceptional durability and trustworthiness developed on the battlefield.

Our in-house R&D Lab and UK production facilities offer customers the unique opportunity to work on exclusive projects and solutions directly with the Arktis team.

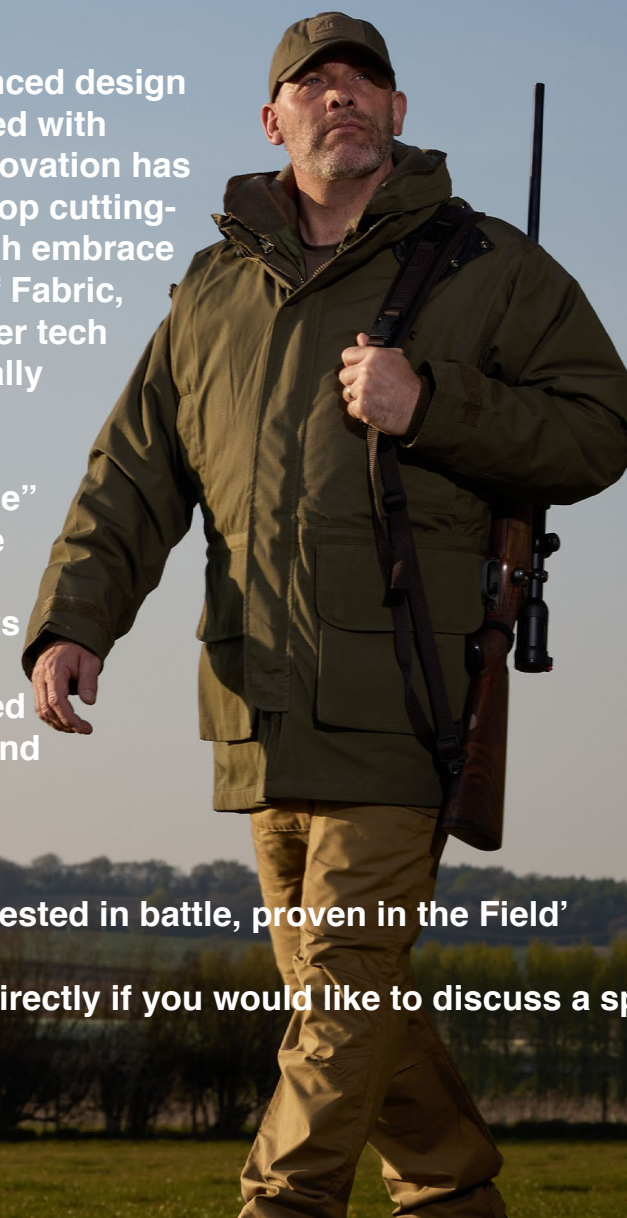

Our heritage, Advanced design knowledge combined with Technical fabric innovation has enabled us to develop cutting-edge products which embrace our design Ethos of Fabric, Fit, Function. Top tier tech which is commercially affordable.

Quality of endurance" is a commitment we made 40 years ago, and all new products must live up to this reputation of Rugged Quality, Durability and British Heritage.

'Built for the Hunt, tested in battle, proven in the Field'

Please contact us directly if you would like to discuss a special project or requirement.

WOODLAND HUNTER

Featuring a range of garments in Olive/Ranger Green and Pencott Greenzone. Created by Pencott® in the UK, Greenzone is a complex, organic-looking pattern that confuses and disrupts visual processing, rendering it effective in multiple environments.

ALPINE HUNTER

Comb Blizzard is a camouflage developed in-house by the Arktis team in late 2014. NIR and IR compliant, Comb Blizzard is highly effective in multiple alpine environments due to the grey tones within the camouflage. In the past year Comb Blizzard has been used extensively by British Forces training in the Arctic Circle

SAVANNA HUNTER

Comb Arid is another camouflage created in-house. Designed in 2015/16, it uses honeycomb shapes and very subtle tonal colours to give an exceptional camouflage effect. Tested by the Botswana Defence Force in 2017, Comb Arid outperformed British DPM and a MultiCam variant.
